Narratives

Disaster Damage:

In October 2015, South Carolina received unprecedented and historical rainfall and flooding. This heavy rainfall of over 20 inches across the State came from an upper atmospheric low-pressure system that funneled tropical moisture from Hurricane Joaquin. The floods caused loss of life and extensive damage to many dams, bridges, roads, homes, and businesses. There was severe erosion on the beaches of northeast South Carolina as well as losses suffered in the agricultural industry statewide. Thousands of National Guard troops, hundreds of State Troopers, the Coast Guard and assessment crews were activated to respond to this historic flooding. There were many residents rescued from their homes and others were assisted in evacuation efforts by National Guardsman as well the Coast Guard. Damage from these floods was monumental. The flooding also impacted utilities, wastewater treatment systems, and drinking water treatment and collection systems. The October 2015 floods caused extensive damage to the State's dams. According to the Mission Scoping Assessment and Recovery Support Strategy (RSS), as many as 243 dams were damaged. Of the 2,370 regulated dams in the state, 52 dams failed. In addition, two sections of the levee adjacent to the Columbia Canal were breached and multiple unregulated dams failed. The storm impacted more than 541 roads and 221 bridges, and 25 bridges will require complete replacement.

Just as South Carolina was beginning their recovery effort, it was estimated that rain would continue to fall for several more days while residents were awaiting the waterways to crest. Families, including many of low-to-moderate income, had to abandon their homes, and many houses were isolated as a result of significant damage to roads and bridges. Contaminated drinking water systems posed a threat to public health, and sewage, industrial runoff, and pollutants seeped into the environment. As a result, 400,000 residents were under a boil-water advisory that affected approximately 16 water systems.

Heavy, continual rain stalled over the majority of the state, causing widespread, massive flooding. More than 33,100 homes received more than one-foot of flood water in the home. Importantly, however, the disaster was not just a flood event. It was also a rain event that caused impact to homes from above, with some homeowners reporting rain that blew in sideways, causing damage to roofs and walls that they never expected. This factor has complicated the recovery process in that damage can not only be assessed from below, measuring flood damage, but must consider rain damage as well.

The impact of the floods on the housing sector was estimated at a cost of \$673 million in damage to single family homes and rental properties. Aging housing stock suffered damage across a full range of impact including flood damage and structural damage to roof and foundation from combined extensive rain. Hundreds of homes were destroyed or severely damaged, leaving families living in substandard or unsafe conditions, or causing them to be displaced from their communities and places of employment.

Recovery Needs:

The state has conducted intensive recovery planning in order to guide its long-term recovery efforts. This included FEMA's deployment of an (AET) Advance Evaluation Team whose mission was to conduct a preliminary assessment and to determine which Recovery Support Functions (RSFs) to activate. After the groundwork laid by the AET and the Mission Scoping Assessment, the State worked intensely to develop a Recovery Support Strategy (RSS) through the Federal Interagency Recovery Coordination group. The RSS outlined initial estimates of storm and flood impact across many sectors, as well as identifying a host of possible goals, strategies, and potential actions. In addition, the State also had six RSFs that addressed issues of concern within their functional areas:

- Community Planning and Capacity Building
- Economic Recovery
- Health and Social Services
- Housing Recovery
- Infrastructure Systems Recovery

Natural and Cultural Resources

When examining the relative need by sector, housing represents the greatest need with \$521,586,669 in unmet need, followed by the infrastructure sector with \$15,087,560 in unmet need, followed by the economy sector (including agriculture) with a surplus in recovery funds due to Legislative action taken to provide state funds for an agricultural recovery program. The federal allocation of \$96.8 million will allow the State to address less than one fifth of the overall unmet need. Based on analysis of the state's unmet needs and the limited amount of recovery funds made available, South Carolina targeted recovery funds toward the most evident need in the area of Housing recovery.

Overall Progress Narrative:

This Quarterly Progress Report (QPR) is the 17th published for grant number B-16-DH-45-0001 by the state of South Carolina, where A'ja Wilson was recently commemorated with a statue in honor of her time playing for the USC Gamecocks. The South Carolina Office of Resilience through the South Carolina Disaster Recovery Office and its procured contractor Horne, LLP (the State) will discuss its progress between 1 October and 31 December in the QPR below. The Stateâ¿¿s efforts reflect a grant it received from the Department of Housing and Urban Development (HUD) to rebuild South Carolina from the October 2015 Severe Storm (DR-4241).

On September 29th, 2020, Governor McMaster signed Act. No. 163 of the 123rd session, which created the Office of Resilience. This Office is instructed to develop, implement, and maintain the Statewide Resilience Plan and to coordinate statewide resilience and disaster recovery efforts. As part of this law, the South Carolina Disaster Recovery Office and its grant responsibilities will be moved

from South Carolinaâ¿¿s Department of Administration to the Office of Resilience. This organizational transfer will continue to occur over the next few months.

The Stateâ¿¿s rehabilitation program for the 2015 Severe Storm is in its final stage and will cease its main construction activities this year. It anticipates that around 1,820 homes will be completed by the end of the program. Once the main construction activities are completed, the State will focus servicing potential warranties and meeting the final HUD requirements for closing out the grant.

Across both programs, the State has returned 2,827 households back into their safe, sanitary, and secure homes. For this quarter and grant, the State has completed 17 Most Impacted and Distressed (MID) and 9 Non-Most Impacted and Distressed (NMID) homes, for a combined total of 26 homes this quarter. Cumulatively, the State has finished 1,353 MID homes and 439 NMID homes, for a combined total of 1,792 homes. Using the new 1,820 projection for homes completed by the end of this grant, State has completed 109% of its projected MID homes and 75% of its projected NMID homes. Despite COVID-19, the State has been able to continue housing construction due to the industryâ¿¿s classification as essential and the adoption of safe practices.

The State continues to take action to affirmatively further fair housing throughout our multiple housing programs by consistently showing concentrated efforts to serve the LMI population. In addition to serving the LMI population, the State continues to prioritize the needs of the elderly, disabled, and female-headed households.

Additionally, the contract report required by Public Law 114-113 is attached to the Administration Activity.

Activity Description:

This activity will cover the general administration of the program by the South Carolina Disaster Recovery Office, which was originally a part of the SC Department of Commerce. On December 4th, 2018, Governor McMaster signed Executive Order No. 2018-59, which transfered the SC Disaster Recovery Office and its grant responsibilities from the SC Department of Commerce to the SC Department of Administration. The organizational transition took place over Quarter 4 2018 through Quarter 1 2019.

Location Description:

632 Rosewood Drive Columbia, SC 29201 AND Wade Hampton Building, Suite 460 1200 Senate Street Columbia, SC 29201

Activity Progress Narrative:

Drawdowns completed this quarter were for the general administration of this program.

Activity Description:

Limited temporary relocation assistance (case-by-case basis) for applicants undergoing construction in either single family stick-built or manufactured housing units.

The State will ensure that the assistance and protections afforded to persons or entities under the Uniform Relocation Assistance and Real Property Acquisition Policies Act (URA), and Section 104(d) of the Housing and Community Development Act of 1974 are available. The URA provides that a displaced person is eligible to receive a rental assistance payment that covers a period of 42 months. The State accepts the HUD waiver of the Section 104(d) requirements which assures uniform and equitable treatment by setting the URA and its implementing regulations as the sole standard for relocation assistance under FR-5938-N-01. The State will designate a URA specialist to ensure compliance with the Uniform Relocation Act (URA), where applicable.

Location Description:

Clarendon County, Charleston County, Dorchester County, Florence County, Georgetown County, Horry County, Sumter County, and Williamsburg County

Activity Progress Narrative:

The State has not had any new applicants require relocation assistance this quarter. Expenditures for this activity went towards applicants of previous quarters who required temporary housing.

Most Impacted and Distressed Expended	\$2,410,005.20	\$76,762,589.56

Activity Description:

To assist the most vulnerable families in their recovery efforts, the State has developed a housing program to meet the housing needs as identified through the unmet needs assessment to include:

- 1. Repair/Rehabilitation of existing housing units;
- 2. Replacement of damaged Manufactured Housing Units (MHUs) deemed unrepairable through a feasibility review;
- 3. Consideration of limited relocation assistance on a case by case basis

The State and it's procured implementation contractor, Horne, LLP, will implement this activity. Horne will oversee the process from eligibility and Duplication of Benefits review, through the property closeout. The entire group of beneficiaries for this activity will meet the low-mod national objective.

Location Description:

Clarendon County, Charleston County, Dorchester County, Florence County, Georgetown County, Horry County, Sumter County, and Williamsburg County

Activity Progress Narrative:

As the program is well into its final phase of construction, the State recognizes that it won't be able serve everyone who applied to its rehabilitation programs. As part of the production slowdown, the State is judiciously

selecting future construction projects in order to continue its commitment to be able to serve the greatest number of applicants while also ensuring that the highest priority clients are served ahead of the others. This quarter, it has returned 17 MID applicants back to their safe, sanitary, and secure homes. Around 30 total homes are expected to be rehabilitated before the construction phase of the 2015 Severe Storm Grant ends. Once construction is completed for the grant, the State will oversee the remaining home's one year construction warranty and focus on closing the grant. More information about about this process will be available in future QPRs.

Area ()

The state has conducted intensive recovery planning in order to guide its long-term recovery efforts. South Carolina has developed a Citizen Participation Plan in compliance with § 24 CFR 91.115 and applicable HUD requirements to set forth the policies and procedures applicable to citizen participation, intended to maximize the opportunity for citizen involvement in the planning and development of the South Carolina CDBG-DR recovery program. South Carolina held five public hearings during Action Plan development to collect early input from citizens impacted by the October 2015 floods. The State has assigned a State Disaster Recovery Coordinator to the overall coordination of long-term recovery efforts. In addition, the State took its own initiative to outline South Carolina's Disaster Recovery Framework. South Carolina's Department of Commerce incurred preaward costs and is seeking reimbursement for these costs that are reasonable and allowable under this regulation. These costs include the cost for salary, employer fringe benefits, and direct operating cost for each employee based on their individual percentage of time spent on the planning of the CDBG-DR program during a pay period.

Location Description:

Bamberg County, Berkeley County, Calhoun County, Charleston County, Clarendon County, Colleton County, Darlington County, Dorchester County, Fairfield County, Florence County, Georgetown County, Greenwood County, Greenville County, Horry County, Kershaw County, Lee County, Marion County, Newberry County, Orangeburg County, Spartanburg County, Sumter County, Williamsburg County

Activity Progress Narrative:

Due to COVID-19, the State is hosting its monthly stakeholder meetings online through Zoom. Additionally, it is continuing its commitment to public transparency by continuing to post updated program information and statistics online.

South Carolina Department of Commerce	\$0.00	\$81,530.38
Most Impacted and Distressed Expended	\$0.00	\$151,649.52

Activity Description:

The South Carolina Disaster Recovery Office's (SCDRO) Affordable Rental Program seeks to repair and restore the availability of affordable rental stock in the impacted State Government Area of Responsibility (SGAOR) area. The program will provide up to \$25,000 in assistance to rental property owners for eligible activities including the rehabilitation and associated improvements, such as energy efficiency and resilience activities, of single-family stick-built rental properties. The Affordable Rental Program will repair up to two units per rental property owner, with a \$25,000 cap each. SCDRO may

The Affordable Rental Program will repair up to two units per rental property owner, with a \$25,000 cap each. SCDRO may consider repairs beyond the \$25,000 cap on a case-by-case basis.

The State and it's procured implementation contractor, Horne, LLP, will implement this activity. Horne will oversee the process from eligibility and Duplication of Benefits review, through the property closeout. The entire group of beneficiaries for this activity will meet the low-mod national objective.

Location Description:

Clarendon County, Charleston County, Dorchester County, Florence County, Georgetown County, Horry County, Sumter County, and Williamsburg County

Activity Progress Narrative:

The State is in the process of filling the completed rental properties with renters matching HUD program requirements.
