State-Funded Mitigation Grant Program

This grant opportunity supports projects that reduce current and future flood risks to South Carolina communities, residents, property, and infrastructure in alignment with the State's Strategic Statewide Resilience and Risk Reduction Plan. A total of $10 million is available.

The application period opens **October 15, 2026**, and closes **January 15, 2027.**

ELIGIBLE PROJECTS

$5 million for Plans & Studies and Project Scoping

$5 million for Stormwater Restoration, Stormwater Improvements, & Voluntary Buyouts

- Plans & Studies better understand flooding challenges and identify practical solutions to reduce future flood risk.
- Project Scoping to fund the engineering and design of stormwater improvement projects to produce 90%-100% Construction Documents.
- Stormwater Restoration to restore existing drainage systems to their originally designed function.
- Stormwater Improvements to fund the construction of shovel-ready stromwater improvement projects.
- Voluntary Residential Buyouts for the purpose of removing citizens from hazardous areas, safeguarding property, and restoring the natural function of the floodplain. The parcels will be permanently returned to green space.

ELIGIBLE APPLICANTS

Counties

Municipalities

Individual Citizens

for Voluntary Residential Buyouts ONLY

*Other government entities, such as COGs and Tribal governments may be eligible for certain project types.
